

# Cawdor Primary School

## School Improvement Plan

2023/2023

Each year as a school we develop a School Improvement Plan (SIP) which details how we aim to improve learning for all children in Cawdor. Our 2022/2023 improvement plan sits as part of our 2021-2024 three year improvement overview.

**We will develop our ethos – HOW it feels and HOW we’re supported to learn**

**We will develop our curriculum – WHAT we are learning and WHEN we learn it**

**We will develop our pedagogy – HOW we learn and WHY we learn in that way**

**IMPROVEMENT PROJECT 1**  
Our Cawdor Learning Journey

We are going to develop an approach to Profiling from ELC to P7 to support our children and their families better understand the progress that they are making, and document this progress. We are going to work with the other Nairn schools to develop high quality assessments and observations for inclusion in children’s Profiles.

**IMPROVEMENT PROJECT 2**  
We are Team Cawdor

We are going to use our new purpose, vision, values and aims to develop our approach to learning for sustainability through our policy and practice in wellbeing – positive relationships; children’s rights; equality and diversity; and bullying prevention.

**IMPROVEMENT PROJECT 3**  
Cawdor Play and Enquire to Learn

We are going to further develop our approach, both outdoors and indoors, to learning through play and inquiry to support our children’s development, learning and wellbeing. We will use the creativity skills of curiosity, open-mindedness, imagination and problem solving to drive this.

Through these actions we will work together as #TeamCawdor to continuously reflect on why we learn, what we learn, how we learn, when we learn and where we learn.
